Guidelines for mapping of Business Lines**Segment Reporting**

A segment is a distinguishable component of the Bank that is engaged either in providing product or services (business segment), or in providing products or services within a particular economic environment, which is subject to risks and rewards that are different from those of other segments.

Business segments**(a) Corporate finance**

Corporate banking includes, services provided in connection with mergers and acquisition, underwriting, privatization, securitization, research, debts (government, high yield), equity, syndication, IPO and secondary private placements.

(b) Trading and sales

It includes fixed income, equity, foreign exchanges, commodities, credit, funding, own position securities, lending and repos, brokerage debt and prime brokerage.

(c) Retail Banking

It includes retail lending and deposits, banking services, trust and estates, private lending and deposits, banking service, trust and estates investment advice, merchant / commercial / corporate cards and private labels and retail.

(d) Commercial banking

Commercial banking includes project finance, real estate, export finance, trade finance, factoring, leasing, lending, guarantees, bills of exchange and deposits.
